Anti-vibratoire

Acoustique

NITRILE RUBBER

REF. SE95CC40

Quality:	NBR-SBR
Color:	Black
Hardness:	65 Shores A (+/- 5)
Density:	(about) 1.45 g/cm ³
Break resistance:	7 N/mm ²
Elongation at break:	250 %
Use temperature:	-10/+70°C (+90°C short term)
Persistent distortion at compression:	40% (22h/70°C)
Ageing (70h/100°C):	+7 ShA/-10% break resistance
Swelling (DIN 53521):	+10% of volume (70h/100°C/Medium IRM903)

Key characteristics:

Good value for money, stands oil and gas very well

Standard uses:

Seals, parts cut according to plans...
