

## LATTYCARB 965 JOINING SHEET

### Description:

Calendered gasket sheet jointing material made of carefully selected carbon and synthetic fibres, bonded with special synthetic elastomers and **reinforced** with a steel wire centre core.

A specific mark sensing, applied on the sheet's two faces makes disassembly operations extremely quick and allows minimizing corrosion risks.

### Applications:

High-performance seal suitable for the most parts of the following applications: steam, high-pressure applications, hydrocarbons. It is particularly suitable for large seals. It would be preferable to use the Acid Lattygold 5 for highly corrosive fluids. Temperature parameters, pressure and maximum speed in no way can be associated.

**Parameters:**      T < 450°C                      P < 15 MPa (150 bar)

	Size	Per sheet (€ Excl. tax)
<b>1</b>	1,500 x 1,000	199.11
<b>1.5</b>	1,500 x 1,000	263.94
<b>2</b>	1,500 x 1,000	316.05
<b>3</b>	1,500 x 1,000	448.00
