

LATTYGRAF EFA JOINTING SHEET

Description:

Expanded graphite sheet material with a stainless steel sheet, particularly suitable for promoting the adherence of the graphite without glue. This assembly process preserves the inherent properties of flexible graphite. The reinforcement makes handling of sheets and cut gaskets much easier.

Thanks to its rigidity, LATTYgraf EFA offers great performances for high-pressure or temperature applications. Thanks to its rigidity, LATTYgraf EFA is the most suitable product for blind-assemblies. Homologation: BAM (oxygen).

Applications:

Piping flange seals, body seals and bonnet gaskets for piping, cover gaskets, manhole seals. Compatible with all fluids, except for strong oxidizers. Chemistry, petrochemistry, energy and all the industrial applications. Temperature parameters, pressure and maximum speed in no way can be associated.

Parameters: T -200°C up to 650°C P < 65 MPa (650 bar) PH 0-14

	Size	Per sheet (€ Excl. tax)
1.5	1,500 x 1,500	448.90
2	1,500 x 1,500	494.14
3	1,500 x 1,500	683.48
