ACOUSTIC INSULATION CURTAIN ELASTO-TREL RD – Blue color

APPLICATIONS

It is perfectly suitable to fix and insulate machines that should be accessible.

The sheet could be set up in the form of curtains or straps around the areas to be insulated (these areas must remain easy to get to by the users).

ACOUSTIC PROPERTIES

The sheet is characterized by an important volumetric weight (twice as high as classical rubber) and also high internal losses, what ensures an insulating and absorbing effect.

Material	:	Rubber +heavy load materials
Appearance	:	Grained sides
Density	:	2.7 g/cm ³
Width	:	1,200 mm
Thickness	:	2.7 mm

Tariffs* : 137.40 €per m²
