

## RUBBER CARPET FOR COWSHED

This carpet is recommended for trailers, horseboxes, cattle trucks, waiting areas, milking sheds, crowded cowsheds, loose box, pigsty or henhouse floor...

**Description:** Ultra sturdy rubber carpet, mainly used in the agricultural environment

- Advantages:**
- Optimum comfort for horses: its flexible covering protects horses' joints and reduces injury risks. Acoustic and thermal insulation.
  - Hygienic: the upper face is beaten, the bottom one is grooved for better sanitary conditions. Easy clean.
  - Durability: excellent wear resistance
  - Economical: reduces maintenance costs, straw consumption and daily stall cleaning time
  - Maintenance: hosepipe or pressure machine

**Dimensions:** 2,000 x 1,200 mm

**Thickness:** 15 - 18 mm

**Weight:** about 55 kg per carpet (23 kg/m<sup>2</sup>)
