

SE 25 COMPOSITE FOAM

Material : high dense foam pad; flexible PU and binder-based
Dimensions : 2,000 x 1,000 x 25 mm
Adhesive : On one side
Protection : Black waterproof PU film (protection against dampness, dust...)

Average gain*: Low-pitched (100-400Hz) = **16.91 dB**
Medium (400-2,000Hz) = **34.45 dB**
High-pitched (2,000-10,000Hz) = **54.00 dB**

**Average gain measured (metal plate, thickness 1mm + foam)*

Key-points : Great efficiency on a wide frequency range
Stanley Knife cut, easy to lay (adhesive)
Applications : Agricultural machines, pumps, engines, generators...

Unlike the foam pads available on the market (from 80 up to 120 Kg/m³), our SE25-Composite Foam is much more dense (160 up to 200 Kg/m³), which gives it great acoustic properties on all frequencies (please consult tests realized in laboratory).

TARIFFS* (price per a 2 m plate²)

Non-contractual color

For 1 plate: 77.27 €/per plate
For 2 plates: 75.52 €/per plate
For 3 plates: 72.79 €/per plate
For 4 plates: 70.27 €/per plate
For 5 plates: 67.17 €/per plate

For 8 plates: 65.91 €/per plate
For 10 plates: 64.92 €/per plate
For 15 plates: 64.71 €/per plate
For 20 plates: 59.68 €/per plate
For 40 plates: 51.84 €/per plate

CARRIAGE COSTS

**CARRIAGE COSTS ARE CALCULATED
ACCORDING TO THE DELIVERY POINT**

**All our tariffs are exclusive of tax*
