

## 4758 LATTYflon BRAID

### Description:

Composite braid: corners 100% aramid impregnated with PTFE, friction sides. 100% PTFE lubricated exempt from silicone, then impregnated when braiding PTFE.

### Applications:

Alternative pumps, rotary presses, mixers, powder conveyors. Pulverulent products, chemical, agrochemical, petrochemical industries, food processing industry, sugar refineries, cement works, mining industries. Temperature parameters, indicated pressure and maximum speed in no way can be associated.

**Parameters:** T -220°C up to +300°C P < 100MPa (1,000 bar) V < 10m/s PH 2-14

	Packaging	Per box (€Excl. tax)
8x8	15 m (1.30 Kg)	386
10x10	12 m (1.56Kg)	473
12x12	11 m (2.37 Kg)	678

### CARRIAGE COSTS

**CARRIAGE COSTS ARE CALCULATED  
ACCORDING TO THE DELIVERY POINT**
