

CORNER PROTECTION

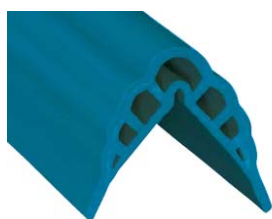

TECHNICAL CHARACTERISTICS:

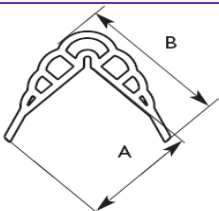

To guarantee a simple and efficient protection of the edges of walls at $90^\circ \pm 10^\circ$, the corner protections without aluminum support are the ideal alternative.

Quality	Hardness Shore A	Resistance					
		Rupture MPA	At elongation	Break	Oils	Detergents	Acids
SEBS	65	10.6	700%	32 kN/m	Medium	Excellent	Excellent

Quality	Resistance to ultraviolet rays	Antifungal treatment	Toy safety standards
SEBS	Excellent	Yes	Yes

ALVEOLUS (Ref SEALPP):

	Dimensional characteristics		
	A (mm)	B (mm)	L (mm)
	50	63	2,000

Product made on request (medium deadline: *from 2 up to 5 weeks according to colors*)

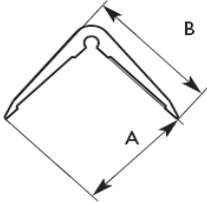

Possible colors:

CORNER PROTECTION (Ref SE50PP):

	Dimensional characteristics		
	A (mm)	B (mm)	L (mm)
	25	35	2,000
	50	55	2,000
	70	75	2,000

Product made on request (medium deadline: *from 2 up to 5 weeks according to colors*)

CORNER PROTECTION (Réf SE1XPP):

	Dimensional characteristics		
	A (mm)	B (mm)	L (mm)
	15	18	2,000

Product made on request (medium deadline: *from 2 up to 5 weeks according to colors*)

Possible colors
